About Us

FORMERLY KNOWN AS S R ENERGY

S R Energy & Data Processing is an associate company of ST Data Processing (established in 2022). The company was formed to explore opportunities in the clean & green energy sector, in line with India's renewable energy target of 500 GW by 2030, and continues to deliver rooftop and ground-mount solar installation services across various states of India.

As one of India's emerging service providers in Solar Power Plant Development, our team brings deep, hands-on experience across Illumination, Renewable Energy, MEP & Telecommunication, Transmission, and Power Distribution. This cross-industry expertise allows us to engineer solutions that are efficient, reliable, and built to last.

At the heart of everything we do is a customer-first philosophy. We take the time to understand every client's unique requirements and deliver high-quality, affordable solutions with complete transparency and care.

"We are also well known for our customer-centric approach — we understand your needs and work accordingly to deliver at affordable rates."

Vision & Mission

OUR VISION

To become a global marketplace for environmentally friendly, low-carbon, and sustainable energy solutions – recognised as a leading provider of high-quality, innovative, and eco-friendly solar systems that help reduce the world's dependence on fossil fuels.

OUR MISSION

To build a future of sustainable growth where clean, affordable, and reliable power is accessible to everyone. We deliver the best quality products at competitive prices, backed by excellent service, while building lasting relationships through cost-effective, tailored solutions.

OUR GUIDING PHILOSOPHY

“We believe every project is a partnership – built on transparency, quality, and a genuine commitment to a sustainable tomorrow.”

Clean Energy

Fair, Transparent Pricing

Long-Term Partnerships

Why Choose Us

Six core values define the way we work and the way we grow — together with our clients and partners.

Integrity

Honesty, fairness, and transparency guide everything we do.

Innovation

We continuously explore new ideas to improve efficiency and outcomes.

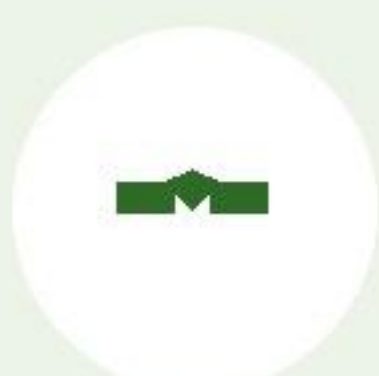

Quality & Safety

Every product and service meets the highest standard. We maintain all HSE (Health, Safety & Environment) norms during installation work for the safety of our workforce.

Customer Satisfaction

Your needs come first — always, on every project we take on.

Teamwork

We collaborate closely across our teams and industry partners.

Continuous Improvement

We never stop refining how we work and how we deliver.

“Values are not just words on a page — they define how we design, build, and serve on every single project.”

Range of Services

From system design to long-term maintenance, we offer a complete suite of solar and workforce solutions tailored to every scale of project.

Rooftop and Ground Mount Solar

Custom-designed rooftop and ground-mount solar systems for homes and businesses that cut electricity bills and add long-term value.

On-Grid Solar Systems

Grid-connected solutions engineered for maximum energy efficiency.

Off-Grid Solar Systems

Independent, reliable power solutions for remote and unconnected locations.

Hybrid Solar Systems

The best of both worlds — reliability paired with true energy independence.

EPC Services

Engineering, Procurement & Construction, managed end-to-end in-house.

O&M Services

Operations & Maintenance programs that keep systems performing at their best.

Rural & Urban Electrification

Powering homes, businesses, and communities — one project at a time.

Workforce Solutions

Skilled staffing services for energy, telecom, and infrastructure projects.

Need a custom solution for your project?

Talk to our team — we tailor every system to your site and budget.

Why Partner With Us

Cross-Industry Expertise

Deep experience across illumination, renewable energy, MEP, telecom, transmission, and power distribution.

Skilled & Experienced Team

A team of qualified professionals delivering projects with precision and care.

Customer-Centric Approach

We listen first, then design solutions around what our clients actually need.

Affordable, Transparent Pricing

High-quality solutions delivered at fair, competitive rates – with no hidden costs.

End-to-End Project Support

From survey to commissioning to maintenance – supported at every step.

Pan-India Workforce Solutions

Reliable staffing services supporting energy and infrastructure projects nationwide.

Industries We Serve

- Illumination
- Renewable Energy
- MEP & Telecommunication
- Transmission
- Power Distribution

From first survey to final commissioning – we stay with you at every step, on every project, anywhere in India.

Our Safety Commitment

Safety is a core value at S R Energy & Data Processing — on every rooftop, every ground-mount site, every day.

We are committed to protecting the health, safety, and well-being of our employees, contractors, clients, and communities. We believe every incident is preventable and that all work can be carried out safely through careful planning, risk assessment, and compliance with statutory and HSE (Health, Safety & Environment) requirements. Every team member is empowered to pause unsafe work, use proper PPE, and follow established safety procedures — because our goal is zero harm, with everyone returning home safely, every day.

How We Put Safety Into Practice

Zero Harm Goal

Every incident is preventable — we plan and execute with that belief at every site.

PPE & Procedures

Proper personal protective equipment and established safety procedures on every job.

Risk Assessment

Careful planning and risk assessment before work begins on rooftop or ground-mount sites.

Statutory & HSE Compliance

Full compliance with statutory and HSE (Health, Safety & Environment) requirements.

Key Customers

We are proud to have earned the trust of leading organisations in the renewable energy and infrastructure space.

Vivaan Renewable Pvt Ltd

Krushnam Infra Pvt Ltd

Vats Plus Infra Tech Pvt Ltd

Proficient Techno Power

"Thank you to our valued partners for trusting us with your renewable energy journey."

Meet Our Team

The people driving S R Energy & Data Processing forward – across finance, engineering, and on-site execution.

Sonu Tiwari
Founder & Director

A dedicated Finance, Accounts & Taxation professional (B.Com. in Taxation) with 12+ years of experience across accounting, GST, income tax, payroll, and statutory compliance. Leads the company's financial strategy and overall business operations.

Anil Harnal
Technical Advisor (IIT Madras)

An IIT Madras alumnus with 44+ years of experience in India's solar and power sector, including 3+ decades at Central Electronics Limited. Guides our EPC, O&M, and technical project strategy.

Reeta Pandey
Operations Manager

M.Tech in Structural Engineering with 8+ years in site supervision, masonry execution, and workforce management. Oversees quality, safety, and technical coordination across projects.

Akshay Kumar
Site Incharge

5+ years of hands-on experience in solar installation and site management across rooftop and ground-mount projects Pan-India, ensuring safe and timely execution on the ground.

Projects — Rooftop Solar

A selection of rooftop solar installations completed for homes and businesses across India.

Projects — Ground Mount Solar

Large-scale ground-mount solar structures engineered and installed across multiple sites in India.

LET'S BUILD A SUSTAINABLE FUTURE TOGETHER
